Lost

In this swashbuckling adventure, Indy and Susie embark on a perilous journey to find the legendary treasure of Dragon Island, a fabled paradise that Susie's father regaled her with stories of in her childhood. Their quest takes a dramatic turn when they're caught in a fierce storm and shipwrecked on the very island they were looking for!

A Fisherman's Tale

Two men, on a boat, fishing. This is the starting point for a story that flees from the clichés of piracy to enter a thrilling adventure in search of love, adventure and redemption. The only catch of the night is a strange compass, a compass that does not point north, but at the longings of your true heart desire. Following its direction, our fishermen will change their destiny forever. Join the fearsome pirate Jackie and Strict Admiral O'Huggme in this erratic race between cannon guns, naval maneuvers and mythological beasts. A struggle between order and chaos, where audacity, courage and the will to fulfill desires will make a difference! It's fun too!
